** When replacing the Main PCB ASSY for Europe and Turkey production before June 2016, please use ERP LOT6 INSERTION together. Contents of these insertions are below in multiple language.

"Auto Power Off Mode

Auto Power Off Mode is available with your machine. If the machine is idle for a certain length of time, it will turn off automatically. You can change the Auto Power Off settings from the **Ecology** menu.

Auto Power Off Mode is not available when your machine is connected to either a network or a telephone line."

This is because Auto Power Off Mode turns ON in default to comply with EU eco-design directive(ErP Lot6 Tier2) after production in July, 2016. (Only Russia is OFF in default) This function is available with the latest firmware and entering the spec code by Maintenance 74.

[For further information, please see "APPENDIX 2. ErP Lot6".](#)

APPENDIX 1. Compatibility between Old & New parts

*When replacing the Main PCB ASSY, please check the compatibility between Old and New and the combination of the Main PCB ASSY and the Wireless LAN PCB. Regarding the how to distinguish between the Old and the New Main PCB ASSY and the Wireless LAN PCB, please refer to the attached file "Distinction_OLD-NEW_PCB-WLAN.pdf" on the Parts List Service Contents (DataBank).

*LT3652001 was changed to LD1969001 by Parts Change Information:1000053286.

APPENDIX 2. ErP Lot6

** When replacing the Main PCB ASSY for Europe and Turkey production before June 2016, please use ERP LOT6 INSERTION together. Contents of these insertions are below in multiple language.

"Auto Power Off Mode

Auto Power Off Mode is available with your machine. If the machine is idle for a certain length of time, it will turn off automatically. You can change the Auto Power Off settings from the Ecology menu.

Auto Power Off Mode is not available when your machine is connected to either a network or a telephone line."

This is because Auto Power Off Mode turns ON in default to comply with EU eco-design directive(ErP Lot6 Tier2) after production in July, 2016. (Only Russia is OFF in default) This function is available with the latest firmware and entering the spec code by Maintenance 74.
